IREB Certification Bodies and Countries

This document lists all licensed Certification Bodies of IREB and which countries they serve with status of January 1st 2017.

The Certification Bodies have bound themselves to conduct exams on site if a minimum number of candidates take the exam. These numbers are listed for each Certification Body for the countries they are licensed for. In any case you should contact the Certification Body even if the minimum number of candidates is not reached; they might conduct the exam anyway.

Links and contact details of the Certification Body can be found on the IREB website http://www.ireb.org/exams/bodies/
